**Subject:** Lew will be in around 9:30 am Thursday - will miss EtO meeting - see lab call report below

Quick note for the group:

A kick-off EtO methods call was held on Wednesday. Participants included EPA (OAQPS + R5), Ramboll, EurofinsUS (lab for Ramboll), and Sterigenics (Kathy Hoffman). Neither the Village of Willowbrook or their contractor (GHD) dialed in for the call.

The participants had a productive call in which we shared information about field challenges, sampling schedules, and our various ideas for future comparisons. A follow-up call will be scheduled for March 7<sup>th</sup> following some time to review each other's extensive data packages.
